Reson8 Platform — Full Feature Table · All Phases

Client Feature Selection Document

Columns: # · Module · Feature Group · Feature Name · Key Capabilities / Sub-features · Data Sources · Output Surface · Phase

Phase Key: - ∞ — Always active · infrastructure · cannot be deselected - **P1** — Core / Launch · required for go-live - **P2** — Intelligence Layer · deepens capability after launch - **P3** — Storytelling & Distribution · advanced features

Sentra Engine — Foundation

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface	Phase
E1	Engine	Language	10-Language NLP	English · Arabic · French · Spanish · Russian · Chinese · German · Portuguese · Persian · Turkish · Arabic dialect recognition	All ingested content	Engine pipeline	∞
E2	Engine	Analysis	Sentiment Analysis	Positive / Neutral / Negative · confidence score · language-aware · culture-adjusted	Social · news	Sentiment layer	∞
E3	Engine	Analysis	6-Emotion Model	Anger / Fear / Joy / Sadness / Disgust / Surprise · per mention · per topic	Social · news	Emotion scores	∞
E4	Engine	Extraction	Named Entity Recognition	Persons · organisations · locations · events · auto-extraction · cross-language	All content	Entity records	∞
E5	Engine	Generation	AI Content Generation	Headlines · captions · talking points · broadcast	Engine-processed signals	Editorial queue	∞

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface	Phase
E6	Engine	Pipeline	Real-Time Pipeline	copy · bilingual output 10k+ signals/day · ingest → enrich → embed · hourly clustering · deduplication	All data sources	Processed signals	∞
E7	Engine	Detection	Breaking News Signal	Real-time event classification · severity scoring · multi-source confirmation	Social · news wires	Alert queue	∞
E8	Engine	Detection	Anomaly Detection	Spike detection · pattern recognition · velocity tracking · volume shift	All content	Alert queue	∞
E9	Engine	Language	Arabic Processing	RTL parity · Shams typeface · Modern Standard Arabic · dialect · bidirectional text	All content	All outputs	∞
E10	Engine	AI	Multi-Model AI Routing	Gemini 2.5 Flash · GPT-4 · Grok · admin-switchable · task-optimised	N/A	All AI outputs	∞
E11	Engine	Detection					∞

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface	Phase
E12	Engine	Analysis	Velocity & Virality Detection	Rate-of-change tracking · viral wave early signal · spread pattern recognition	Social platforms	Alert queue	∞
			Source Credibility Scoring	Trust-weight per source type · authoritative 1.3× · org_upload 1.2×	All content	Weighted signals	

Reson8 Core — Shared Across All Modules

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface
C1	Core	Editorial Chain	Producer Preparation Queue	Graphic selection · data population · staging · draft preview · template picker	Module data layer	Editorial queue
C2	Core	Editorial Chain	Editor Approval Layer	Graphic review · approve / reject · annotation · inline comment · approval timestamp	Editorial queue	Approval decision
C3	Core	Editorial Chain	Operator Take to Air	One-click fire to Vizrt · immediate	Approval queue	Vizrt · On-a

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface
C4	Core	Editorial Chain	Reject & Revise Workflow	audit log entry · confirmation receipt Editor rejection with note · return to producer · revision cycle · re-submission	Editorial queue	Editorial queue
C5	Core	Editorial Chain	Live / Preview Separation	Side-by-side preview vs. live · no accidental on-air · scene pre-render	Module data	Preview display
C6	Core	Editorial Chain	Editorial Audit Trail	Immutable log · timestamp · user · action · content per event	All platform actions	Audit log
C7	Core	Editorial Chain	Editorial Review Gate	Block on all AI content · no bypass · mandatory review before take	AI-generated content	Editorial queue
C8	Core	Vizrt	Vizrt Scene Binding	Data container mapping · field-to-scene assignment · multi-scene support	Module data layer	Vizrt scene
C9	Core	Vizrt	Direct Data Feed to Vizrt	Real-time data push · no manual entry · automated field refresh	Module data layer	Vizrt engine
C10	Core	Vizrt	Viz Engine Output	Drives existing Vizrt renderer · no graphics engine replacement ·	All modules	On-air broadcast

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface
C11	Core	Control Room	Control Room Dashboard	broadcast-ready All outputs · statuses · queue depth · next-up preview · single view Per-screen graphic assignment · multi-output control · channel mapping	Platform state	Control room screen
C12	Core	Control Room	Multi-Screen Management	Per-screen operator · permission scope · session handoff	Module data	Multiple Video outputs
C13	Core	Control Room	Operator Role Assignment	Live on-air indicator · queue depth · next-up preview · output health	User management	Control room screen
C14	Core	Control Room	Real-Time Status Monitor	Instant graphic clear / pull by senior editor · logged immediately	Platform state	On-air · Video screen
C15	Core	Control Room	Emergency Override	Every on-air event · timestamp · operator · graphic content	Platform state	Log · export
C16	Core	Control Room	Broadcast Event Log	Draft from live data · event-triggered · character-limit	Module data + Engine	Editorial queue

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface
C18	Core	AI Content	Lower-Third Caption Generation	aware · editor reviews Text per graphic type · character-count aware · styled to template · bilingual	Module data + Engine	Vizrt lower third
C19	Core	AI Content	Bilingual Broadcast Text	Arabic + English simultaneously · RTL-aware layout	Engine	Both language outputs
C20	Core	Security	Role-Based Access Control	Producer / Editor / Operator / Admin · scope per role · module-level permission	User management	Platform-wide
C21	Core	Security	Audit Logging	Immutable action trail · all platform events · tamper-proof	Platform state	Audit log
C22	Core	Security	Multi-Tenant Architecture	Per-client data isolation · tenant-scoped access · zero cross-tenant leak	Platform	Platform-wide
C23	Core	Security	Notification System	Push alerts · in-app · configurable per user · threshold-driven	Platform events	User device
C24	Core	Security	Broadcast Security & Auth	JWT · OTP · 2FA · SSO · magic link ·	Authentication layer	Login · acco

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface
C25	Core	Performance	≤4 Second Wire-to-Air SLA	control room hardened End-to-end: feed → process → approve → Vizrt · measured per event	All feeds	On-air graphic
C26	Core	Performance	99.99% Uptime Target	Redundancy · failover · health monitoring · zero-failure requirement	Infrastructure	Platform availability
C27	Core	Performance	Primary Feed Redundancy	Primary + fallback data sources · automatic switching on failure	Data feeds	Uninterrupted data
C28	Core	Performance	Broadcast Output Failover	Automatic Vizrt path failover · secondary output activated within SLA	Vizrt output	Continued broadcast
C29	Core	Performance	On-Prem or Cloud Deployment	Deploys in broadcaster infrastructure or cloud · no public cloud dependency	Infrastructure	Deployment flexibility
C30	Core	AI Content	Ticker Copy Generation	AI generates scroll ticker text from live event data · editor reviews	Module data + Engine	Vizrt ticker On-air
C31	Core	AI Content	Commentary Talking Points	AI generates anchor talking points per	Module data + Engine	Editorial context

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface
C32	Core	Control Room	Multi-Output Management	graphic type · bilingual Manage multiple simultaneous Vizrt output surfaces from single interface	Platform state	Multiple Vi outputs
C33	Core	AI Content	Third Language Output	French as optional third broadcast output language for North Africa markets	Engine	French language output

Module 1 – ORA Elections

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface	P
O1	ORA	System Setup	Election Configuration Wizard	Country · election type · format · seat count · electoral system rules	Admin input	ORA interface	
O2	ORA	System Setup	Candidate Database	Full roster: name · party · district · photo · national ID	Admin upload · electoral data	ORA interface · entity profiles	
O3	ORA	System Setup	Party Database	Name · official colours · symbols · acronyms · leadership	Admin upload	ORA interface · Vizrt	
O4	ORA	System Setup	Constituency Mapping	District geospatial data			

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface	P
				· seat allocation · boundaries · region hierarchy	Geospatial · electoral commission	ORA map · Vizrt map	
O5	ORA	System Setup	Results Feed Integration	- API auth · field mapping · validation rules · feed health monitoring	Official results feed	ORA results layer	
O6	ORA	System Setup	Seat / Vote Threshold Alerts	- Majority · seat milestone · concession thresholds · configurable	Platform config	Alert · editorial queue	
O7	ORA	System Setup	Elections Template Library	- Results bar · map · ticker · candidate card · seat projection · coalition panel	Vizrt template files	Vizrt scenes	
O8	ORA	System Setup	Pre-Election Baseline Load	- Historical results · polling data loaded before broadcast night	Historical database · polling	ORA · Vizrt	
O9	ORA	Live Results	Real-Time Vote Count Display	- Live tally · % + absolute votes · per candidate · per constituency · continuous update	Official results feed	ORA · Vizrt · On-air	
O10	ORA	Live Results	Seat Tally Display	- Seats won · projected · majority threshold line · running total	Results feed + Engine	ORA · Vizrt · On-air	
O11	ORA	Live Results	Lead / Trail Indicators	Live ranking per constituency	Official results feed	ORA · Vizrt · On-air	

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface	P
				gain / loss markers vs. last election			
O12	ORA	Live Results	Results by Constituency	National to individual district drill-down · sortable · filterable	Official results feed	ORA · Vizrt · On-air	
O13	ORA	Live Results	Progressive Results Update	% of precincts reporting · confidence indicator · expected completion	Official results feed	ORA · Vizrt · On-air	
O14	ORA	Live Results	Results Validation Layer	Anomaly flag on data jumps · hold before queue · editor confirmation required	Results feed + Engine	Editorial queue (flagged)	
O15	ORA	Live Results	Comparative Results	Current vs. prior election · % swing · absolute change per constituency	Results + historical database	ORA · Vizrt · On-air	
O16	ORA	Interactive Map	Geographic Results Map	National map by winning party / candidate colour · live update	Results + geospatial	ORA · Vizrt map · On-air	
O17	ORA	Interactive Map	Regional Drill-Down	National → Province → District · breadcrumb navigation	Results + geospatial	ORA · Vizrt map	
O18	ORA	Interactive Map	Colour-Coded Party Performance	Configured party colours	Party database + results	ORA · Vizrt	

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface	P
O19	ORA	Entity Profiles	Candidate Profile Card	on map fill · automatic Photo · name · party · district · bio · social links	Admin database + Engine	map · On-air ORA · Vizrt profile · On-air	
O20	ORA	Entity Profiles	Party Profile Card	Overview · leadership · seat target · coalition history	Admin database + Engine	ORA · Vizrt profile · On-air	
O21	ORA	Entity Profiles	Candidate Social Sentiment	Live Engine sentiment on candidate mentions across social	X · Facebook · Instagram · TikTok · news + Engine	ORA · editorial context	
O22	ORA	Entity Profiles	Candidate Media Presence	Coverage volume + tone across news · trend over campaign	News + Engine	ORA · editorial context	
O23	ORA	Election Prep	Historical Election Data	Prior results pre-loaded per constituency · multi-election depth	Historical database	ORA · Vizrt	
O24	ORA	Election Prep	Polling Data Integration	Pre-election polls ingested and shown alongside results	Polling agency feeds	ORA · Vizrt	
O25	ORA	Election Prep	Graphics Template Pre-Load	All Vizrt scenes pre-bound · zero setup on night	Vizrt template files	Vizrt scenes	
O26	ORA	Social Sentiment	Election Social Listening	Full social stream filtered to election topics ·	X · Facebook · Instagram · TikTok ·	ORA · editorial context	

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface	P
				candidates · parties	Snapchat + Engine		
O27	ORA	Social Sentiment	Candidate Sentiment Comparison	Side-by-side sentiment bars per candidate · real-time · directional	X · Facebook · news + Engine	ORA · Vizrt · On-air	
O28	ORA	Social Sentiment	Party Sentiment Trend	Sentiment over time per party · direction · magnitude	X · Facebook · news + Engine	ORA · Vizrt · On-air	
O29	ORA	Social Sentiment	Hashtag Volume Tracking	Top election hashtags · volume · sentiment · velocity	X · Instagram · TikTok + Engine	ORA · editorial context	
O30	ORA	Breaking News	Elections Breaking Feed	Breaking stream filtered to elections · AI-classified severity	News wires · X + Engine	ORA · alert · editorial queue	
O31	ORA	Breaking News	Results Threshold Alert	Alert when result crosses milestone: majority · seat target · concession	Official results feed	Alert · editorial queue	
O32	ORA	Interactive Map	Swing Analysis Map	Direction and magnitude of swing vs. last election per district	Results + historical + Engine	ORA · Vizrt map · On-air	
O33	ORA	Interactive Map	Turnout Map	Turnout % per constituency · heat-map overlay	Results feed	ORA · Vizrt map · On-air	
O34	ORA	Interactive Map	Margin of Victory Map	Visual margin size per district on geographic layer	Results feed	ORA · Vizrt map · On-air	

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface	P
O35	ORA	Entity Profiles	AI-Generated Candidate Brief	Auto-assembled briefing for broadcast anchors · Engine-generated	Engine · news · social	ORA · editorial context	
O36	ORA	Election Prep	Candidate Stance Analysis	AI-extracted positions on key issues from public record	News · social + Engine	ORA · editorial context	
O37	ORA	Election Prep	Pre-Night Editorial Briefing	AI-generated briefing package for editorial team before broadcast	Engine · news · polling	ORA · editorial context	
O38	ORA	Coalition	Seat Mathematics Tracker	Real-time majority threshold calculation · displayed as results arrive	Results feed + Engine	ORA · Vizrt · On-air	
O39	ORA	Coalition	Coalition Scenario Modeller	Models which party combinations reach majority · updates live	Results + Engine	ORA · Vizrt · On-air	
O40	ORA	Coalition	Alliance Formation Alert	Alert when coalition becomes mathematically viable or impossible	Results + Engine	Alert · editorial queue	
O41	ORA	Coalition	Coalition History Display	Prior coalition governments shown as context	Historical database	ORA · Vizrt · On-air	
O42	ORA	Track Record	Parliamentary Voting History	AI-sourced voting record	Engine · open sources	ORA · editorial context	

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface	P
				for incumbent candidates			
O43	ORA	Track Record	Campaign Promise Tracker	Promises made vs. documented actions taken	Engine · news · social	ORA · editorial context	
O44	ORA	AI Prediction	Real-Time Seat Projection	Dynamic model · recalibrates as actual results arrive	Results + Engine	ORA · Vizrt · On-air	
O45	ORA	AI Prediction	Swing Prediction	Direction and magnitude of swing per region · live update	Results + Engine	ORA · Vizrt · On-air	
O46	ORA	AI Prediction	Turnout Forecasting	Projected final turnout based on reported early results	Results + Engine	ORA · Vizrt · On-air	
O47	ORA	AI Prediction	Majority Probability Model	% probability of outright majority per party · updates live	Results + Engine	ORA · Vizrt · On-air	
O48	ORA	AI Prediction	Called Race Detection	AI signals race called when statistical threshold is reached	Results + Engine	ORA · alert · editorial queue	
O49	ORA	Social Sentiment	Viral Claim Detection	Detects rapidly spreading unverified claims in election discourse	X · TikTok · Facebook + Engine	ORA · alert · editorial queue	
O50	ORA	Social Sentiment	Public Mood Analysis	Aggregate emotion across full election social	Social + Engine	ORA · editorial context	

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface	P
O51	ORA	Breaking News	Concession / Victory Detection	discourse · 6-emotion model NLP detects concession or victory language in public statements	News · social + Engine	ORA · alert · editorial queue	
O52	ORA	Breaking News	Anomalous Results Alert	Flags statistically anomalous data jumps before editorial review	Results feed + Engine	Editorial queue (flagged)	
O53	ORA	Track Record	Constituency Service Record	Local project delivery for incumbent candidates · structured data	Engine · open sources	ORA · editorial context	
O54	ORA	Social Sentiment	Social-to-Results Correlation	Compare social sentiment shifts against actual results post-night	Results + social + Engine	ORA · post-broadcast report	
O55	ORA	Storytelling	Election Night Story Builder	Automated narrative of the election night arc · key moments · timeline	Results + social + Engine	ORA · editorial export	
O56	ORA	Storytelling	Post-Election Analysis Package	Full results breakdown · swing analysis · turnout report · shareable	Results + Engine	ORA · export · digital	
O57	ORA	Storytelling	Historical Trend Analysis	Multi-election comparison · party performance over time ·	Historical database + Engine	ORA · Vizrt · On-air

				interval shown			
W18	ATMOS	Live Weather	UV Index Map	Geographic UV index overlay · health advisory integration	Weather API + health data	ATMOS · Vizrt · On-air	P
W19	ATMOS	Storytelling	Historical Weather Comparison	Current conditions vs. historical average for same date	Historical weather + API	ATMOS · Vizrt · On-air	P
W20	ATMOS	Storytelling	Climate Trend Analysis	Long-term trend vs. climate baseline · seasonal outlook	Climate data + Engine	ATMOS · editorial export	P
W21	ATMOS	Storytelling	Weather Impact Stories	Weather effect on agriculture · energy · transport · AI-generated narrative	Weather + sector data + Engine	ATMOS · editorial context	P

Module 5 — FLASH Breaking News

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface
B1	FLASH	System Setup	News Source Configuration	Regions · topics · source categories · language filters	Admin input	FLASH interface
B2	FLASH	System Setup		Major Breaking /	Admin input	Alert classification

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface
			Severity Classification Setup	Breaking / Developing thresholds · per topic · per region		
B3	FLASH	System Setup	Breaking Template Library	Flash overlay · ticker · alert card · developing banner · update graphic	Vizrt template files	Vizrt scenes
B4	FLASH	System Setup	Keyword & Topic Alert Config	Keywords and topic clusters that activate the breaking pipeline	Admin input + Engine	Engine monitoring
B5	FLASH	Live Breaking	Breaking News Detection	Engine classifies breaking events in real time · social + news · 10 languages	News wires · X · Facebook · Instagram · TikTok · Telegram + Engine	Alert queue · editorial queue
B6	FLASH	Live Breaking	Breaking News Alert Queue	Detected items surface in editorial queue for editor review	Sentra Engine	FLASH editorial queue
B7	FLASH	Live Breaking	Severity Classification Display	Each item tagged: Major Breaking / Breaking / Developing · visual priority	Engine	FLASH interface
B8	FLASH	Live Breaking	Multi-Source Aggregation	Social + news wire + broadcast source triangulated per story	News · social · Engine	FLASH interface

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface
B9	FLASH	Live Breaking	Source Attribution Display	Platform and outlet per item · first detection timestamp	All ingested content	FLASH interface
B10	FLASH	Live Breaking	Geographic Tag	Location of breaking event: city / country / region	Engine NER + geolocation	FLASH interface · Vizrt
B11	FLASH	Live Breaking	Cross-Source Verification	Confirmed when detected across multiple independent sources · confidence score	Multi-source Engine	FLASH interface
B12	FLASH	Live Breaking	Breaking News Ticker	Continuous ticker from editor-confirmed breaking items	Confirmed breaking items	Vizrt ticker · On-air
B13	FLASH	Live Breaking	Breaking Flash Overlay	Full or partial overlay on major breaking after editorial approval	Editorial approval	Vizrt · On-air
B14	FLASH	Editorial Chain	Breaking Confirmation Workflow	Editor confirms · reviews source · approves before any graphic goes to air	Editorial queue	Vizrt · On-air
B15	FLASH	Editorial Chain	Breaking News Audit Trail	Source detected · who confirmed · time · take	Platform state	Audit log

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface
B16	FLASH	Editorial Chain	Developing Story Tracker	timestamp · all logged Story thread maintained · graphics update sequentially · timeline view	Multi-source + Engine	FLASH interface · editorial queue
B17	FLASH	Live Breaking	Story Priority Ranking	AI scores each breaking item by impact · reach · velocity · editorial relevance	Engine	FLASH interface
B18	FLASH	Live Breaking	Related Stories Clustering	Groups related breaking items into a single story thread automatically	Engine	FLASH interface
B19	FLASH	Live Breaking	Escalation Detection	Detects when a Developing story escalates to Breaking or Major Breaking	Engine	FLASH interface · alert
B20	FLASH	Live Breaking	Breaking News Archive	Searchable archive of all past breaking events · filterable by topic · date · severity	Platform database	FLASH interface
B21	FLASH	Storytelling	Breaking News Timeline Builder	Auto-generated timeline of a breaking story · key moments · sources	Multi-source + Engine	FLASH · editorial export

#	Module	Feature Group	Feature Name	Key Capabilities / Sub-features	Data Sources	Output Surface
B22	FLASH	Storytelling	Crisis Timeline Reconstruction	Full reconstruction of a breaking event arc · post-event narrative	Historical + Engine	FLASH · editorial export
